An item that helped to sustain early prices. An item that helped to sustain early prices was the news of the resumption of mining operations to-day by many thousands of soft coal miners. Something was made also of the continued assertions that negotiations were in progress to effect an advance in freight rates by the rallreads, in an effort to rectify the cut in their revenues.

The bank statement published during the heliday interval confirmed all other evidences of the heavy accumulation of eash which is going on at this centre, the surplus reserves of the banks hav-

MISCELLANEOUS MARKETS.

DRY GOODS MARKET.

NEW YORK, April 20.—The dry goods market was quiet for the day. Cotton goods and cotton yarns showed a further easing tendency under the influence of lower cotton markets and a continued light demand. Dress goods are quiet, generally speaking, but some lines of well-styled fabrics in popular colors are hard to get for quick shipment. Raw silk is firmer here and abroad, but the local markets show a light demand from manufacturers. Reports from the retail stores show that the Easter business was up to the trade of a normal year, but not equal to the trade of the past two or three years. The textile manufacturing and cutting-up trades in this section are not well employed. DRY GOODS MARKET
